LifeWays Staff,

Today Governor Gretchen Whitmer issued Executive Order (EO) 2020-21 which is a “Stay Home, Stay Safe” order for all Michiganders. Under this EO, all non-essential work, travel or business will be restricted from March 24 until April 13. The EO and a one-page summary on what is allowed and what is not allowed under these new guidelines, is posted on the LifeWays Intranet’s COVID-19 page (<http://www.intranet.lifewayscmh.org/COVID-19.html>).

In response to EO 21, at the end of the workday today, LifeWays will escalate to a Tier-4 response level of service. Your Leadership team member will provide notification to your team members about details related to staffing and services in your area.

My plan is to have the All-Staff meeting as scheduled this Wednesday, March 25, at 8:30 AM. We will utilize the Microsoft Teams product for this meeting (the calendar invitation will be revised with the link).

If you were unable to listen to Governor Whitmer’s address this morning, I would encourage you to listen, as it provides guidance on what “Stay Home, Stay Healthy” involves.

Thank you all for your continued focus on providing services to our consumers while responding to the COVID-19 environment. I appreciate everything you each do every day.

Should we receive further clarification/guidance/instructions from MDHHS that will impact any of this information, we will send it along to you

Gratefully,

Maribeth

Maribeth Leonard, MBA LBSW
